

# Multifunctional civil protection space in the kindergarden / school in Kyiv, Ukraine

## WHY THIS PROJECT

The project aims to plan, reconfigure, and renovate existing shelters in schools and kindergartens, detecting the actual needs through collaboration with stakeholders and the use of the best Swiss practices and Ukrainian experience. It's a comprehensive effort to enhance safety, empower the community, provide educational and cultural opportunities, and contribute to the overall resilience and recovery of Kyiv, aligning with the broader goals of rebuilding and development.

### SWISS EXPERTISE AND SUSTAINABILITY

Leveraging Switzerland's expertise in safe space redevelopment ensures that the project incorporates international best practices and safety standards. The emphasis on sustainability, including energy-efficient technologies, aligns with modern and environmentally friendly practices.

### ACKNOWLEDGMENT

The CAS Rebuild Ukraine program is conducted with the support of State Secretariat for Economic Affairs SECO.

The Project Team would like to express their gratitude for the sponsorship that enabled their participation in the CAS Rebuild Ukraine provided by Geistlich Pharma AG, Kuratle Group AG, Woodpecker Group AG, HILTI and Kantonales Sozialamt Zug.

## PROBLEM STATEMENT

Analysing the possibilities and needs of the double use (as a local community hub, centre of activities for children, coworking, event space, etc) and participating with all the stakeholders to develop a project that meets the community's diverse needs.

## SOLUTION AND APPROACH

Leveraging Switzerland's expertise and Ukraine's emergency protocols, the project will analyze Kyiv's community needs. Stakeholders, including kindergarten staff and students, actively participate, ensuring the shelters meet modern standards for usability.

## RECOVERY MEASURES

Aligned with Ukraine's recovery, the project contributes to rebuilding efforts by repurposing shelters. This supports the broader initiative to rehabilitate damaged schools, emphasizing the importance of investing in educational and communal spaces for the nation's future.
